Disclaimer: The *Daily Livestock Report* is intended solely for information purposes and is not to be construed, under any circumstances, by implication or otherwise, as an offer to sell or a solicitation to buy or trade any commodities or securities whatsoever. Information is obtained from sources believed to be reliable, but is in no way guaranteed. No guarantee of any kind is implied or possible where projections of future conditions are attempted. Futures trading is not suitable for all investors, and involves the risk of loss. Past results are no indication of future performance. Futures are a leveraged investment, and because only a percentage of a contract's value is required to trade, it is possible to lose more than the amount of money initially deposited for a futures position. Therefore, traders should only use funds that they can afford to lose without affecting their lifestyle. And only a portion of those funds should be devoted to any one trade because a trader cannot expect to profit on every trade.
